About Ashiana HVAC Solution

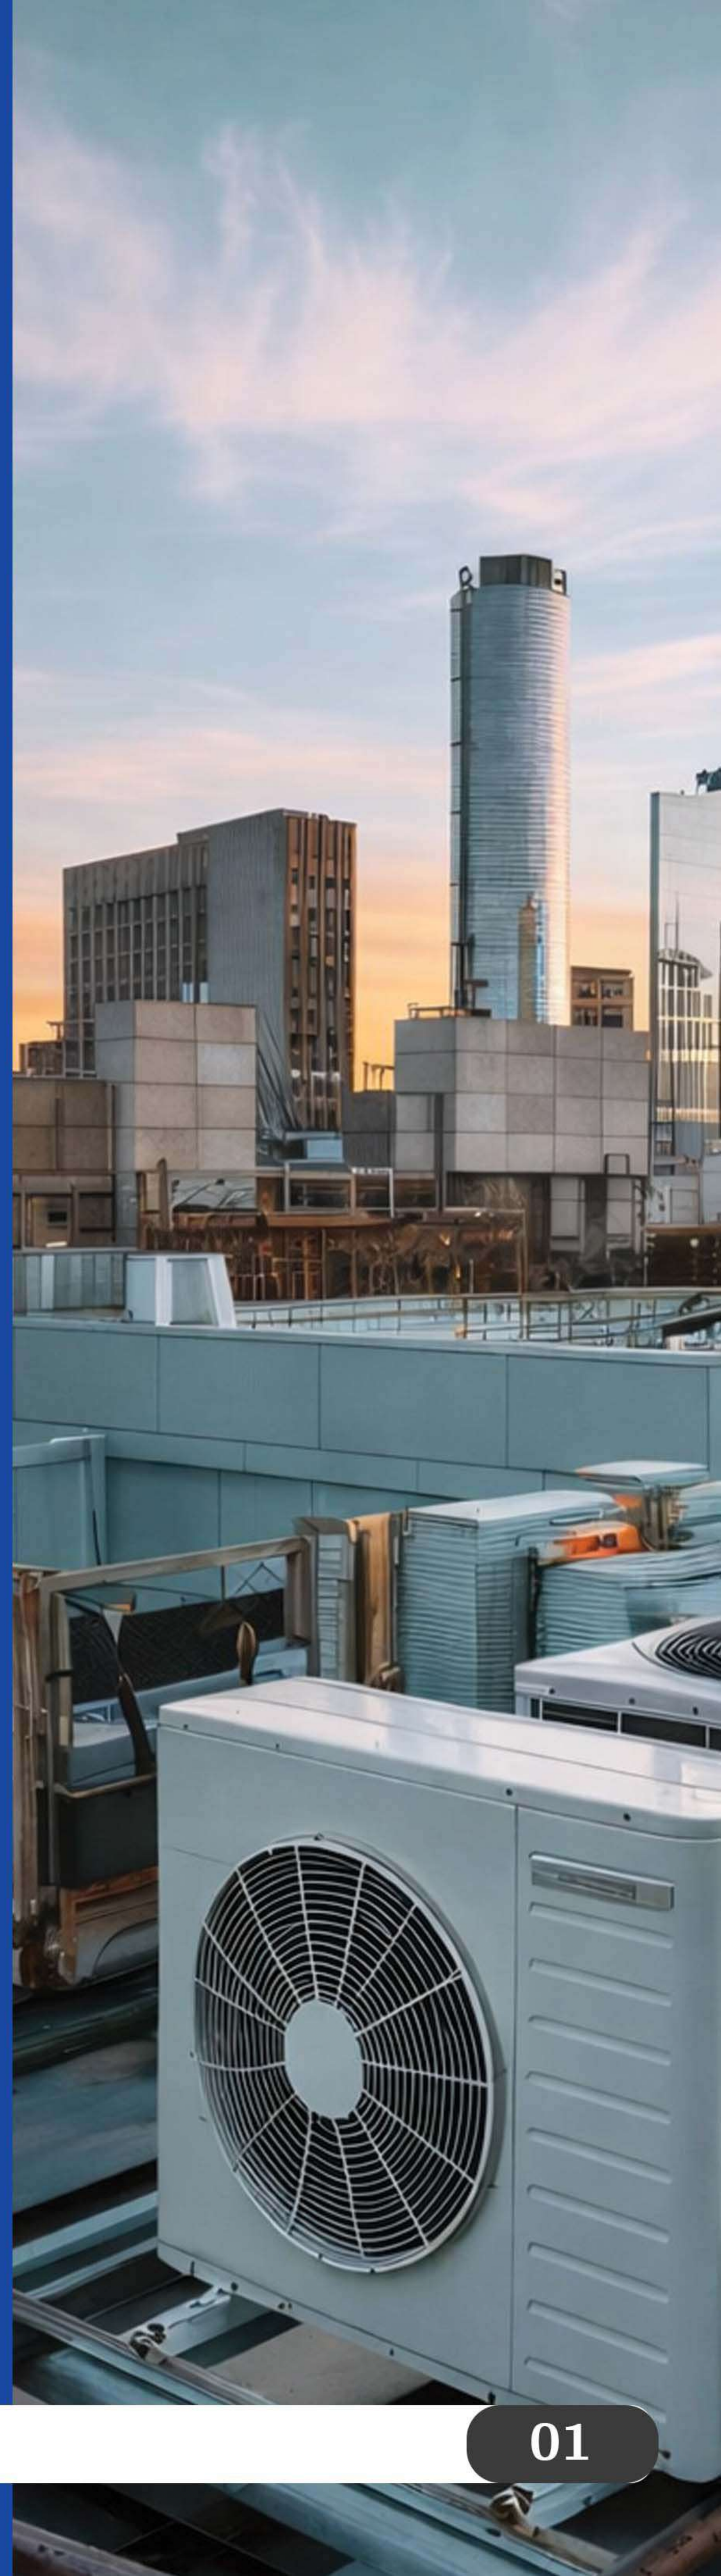

Ashiana HVAC Solution is a professionally managed HVAC engineering and contracting company based in the Ghaziabad (NCR), India. We specialize in delivering comprehensive Heating, Ventilation, and Air Conditioning (HVAC) solutions designed to provide energy-efficient, reliable, and sustainable indoor climate control systems.

With strong technical expertise and project execution capabilities, we serve clients across Delhi NCR and surrounding regions, catering to commercial complexes, residential developments, hospitals, hotels, industrial facilities, educational institutions, and infrastructure projects.

From initial consultation and heat load calculations to system design, equipment supply, installation, testing, commissioning, and long-term maintenance, Ashiana HVAC Solution provides complete end-to-end HVAC services under one roof.

Our approach combines precision engineering, quality workmanship, and adherence to safety standards to ensure every project is delivered with efficiency, compliance, and long-term performance.

**“Engineering
Excellence, Delivered
On Every Projects.”**

Director's Message

At **Ashiana HVAC Solution**, we believe that engineering excellence and customer satisfaction go hand in hand. Since our inception, our goal has been to provide HVAC systems that not only meet technical standards but also deliver long-term value and operational efficiency.

Operating from the National Capital Region, we understand the unique climatic conditions, regulatory requirements, and project challenges of the region. This local expertise allows us to design and implement HVAC systems that are optimized for performance, durability, and energy savings.

We remain committed to innovation, transparency, and quality in every project we undertake. Our team continuously upgrades its knowledge and skills to stay aligned with evolving industry standards and technological advancements.

We sincerely thank our clients and partners for their trust and look forward to building sustainable, comfortable environments together.

Wazir Azam

Director

Our Mission & Vision

Our Vision

Our vision is to become a trusted leader in HVAC solutions, known for technical excellence, innovation, and integrity. We aim to set high standards in engineering and execution while supporting sustainable, energy-efficient practices. By adopting advanced technologies, we strive to grow across sectors and regions and be recognized as a reliable partner for large-scale projects, creating comfortable indoor environments that benefit businesses and communities.

Our Mission

Our mission is to deliver reliable, energy-efficient, and innovative HVAC solutions that enhance indoor comfort while promoting sustainability. We focus on providing cost-effective, high-quality systems with strong safety standards, timely execution, and complete client satisfaction. By combining engineering expertise with practical execution, we aim to exceed expectations and build long-term relationships based on trust and performance.

Services we are offering

With over a decades of expertise, our solutions are engineered to meet the highest standards of quality and sustainability.

Central Air Conditioning

At Ashiana HVAC Solution, we provide advanced central air conditioning systems designed to deliver uniform cooling, energy efficiency, and long-lasting performance for commercial, industrial, and residential spaces.

Air Handling Units (AHU)

We offer high-quality Air Handling Units that efficiently regulate airflow, temperature, and humidity, ensuring superior indoor air quality and a comfortable environment.

Fresh Air Units (FAU)

Our Fresh Air Units are designed to introduce clean, filtered outdoor air into indoor spaces, improving ventilation and maintaining a healthy and refreshing atmosphere.

Ducting Design & Installation

We specialize in customized ducting design and installation, ensuring optimal airflow, reduced energy loss, and efficient system performance with precision engineering.

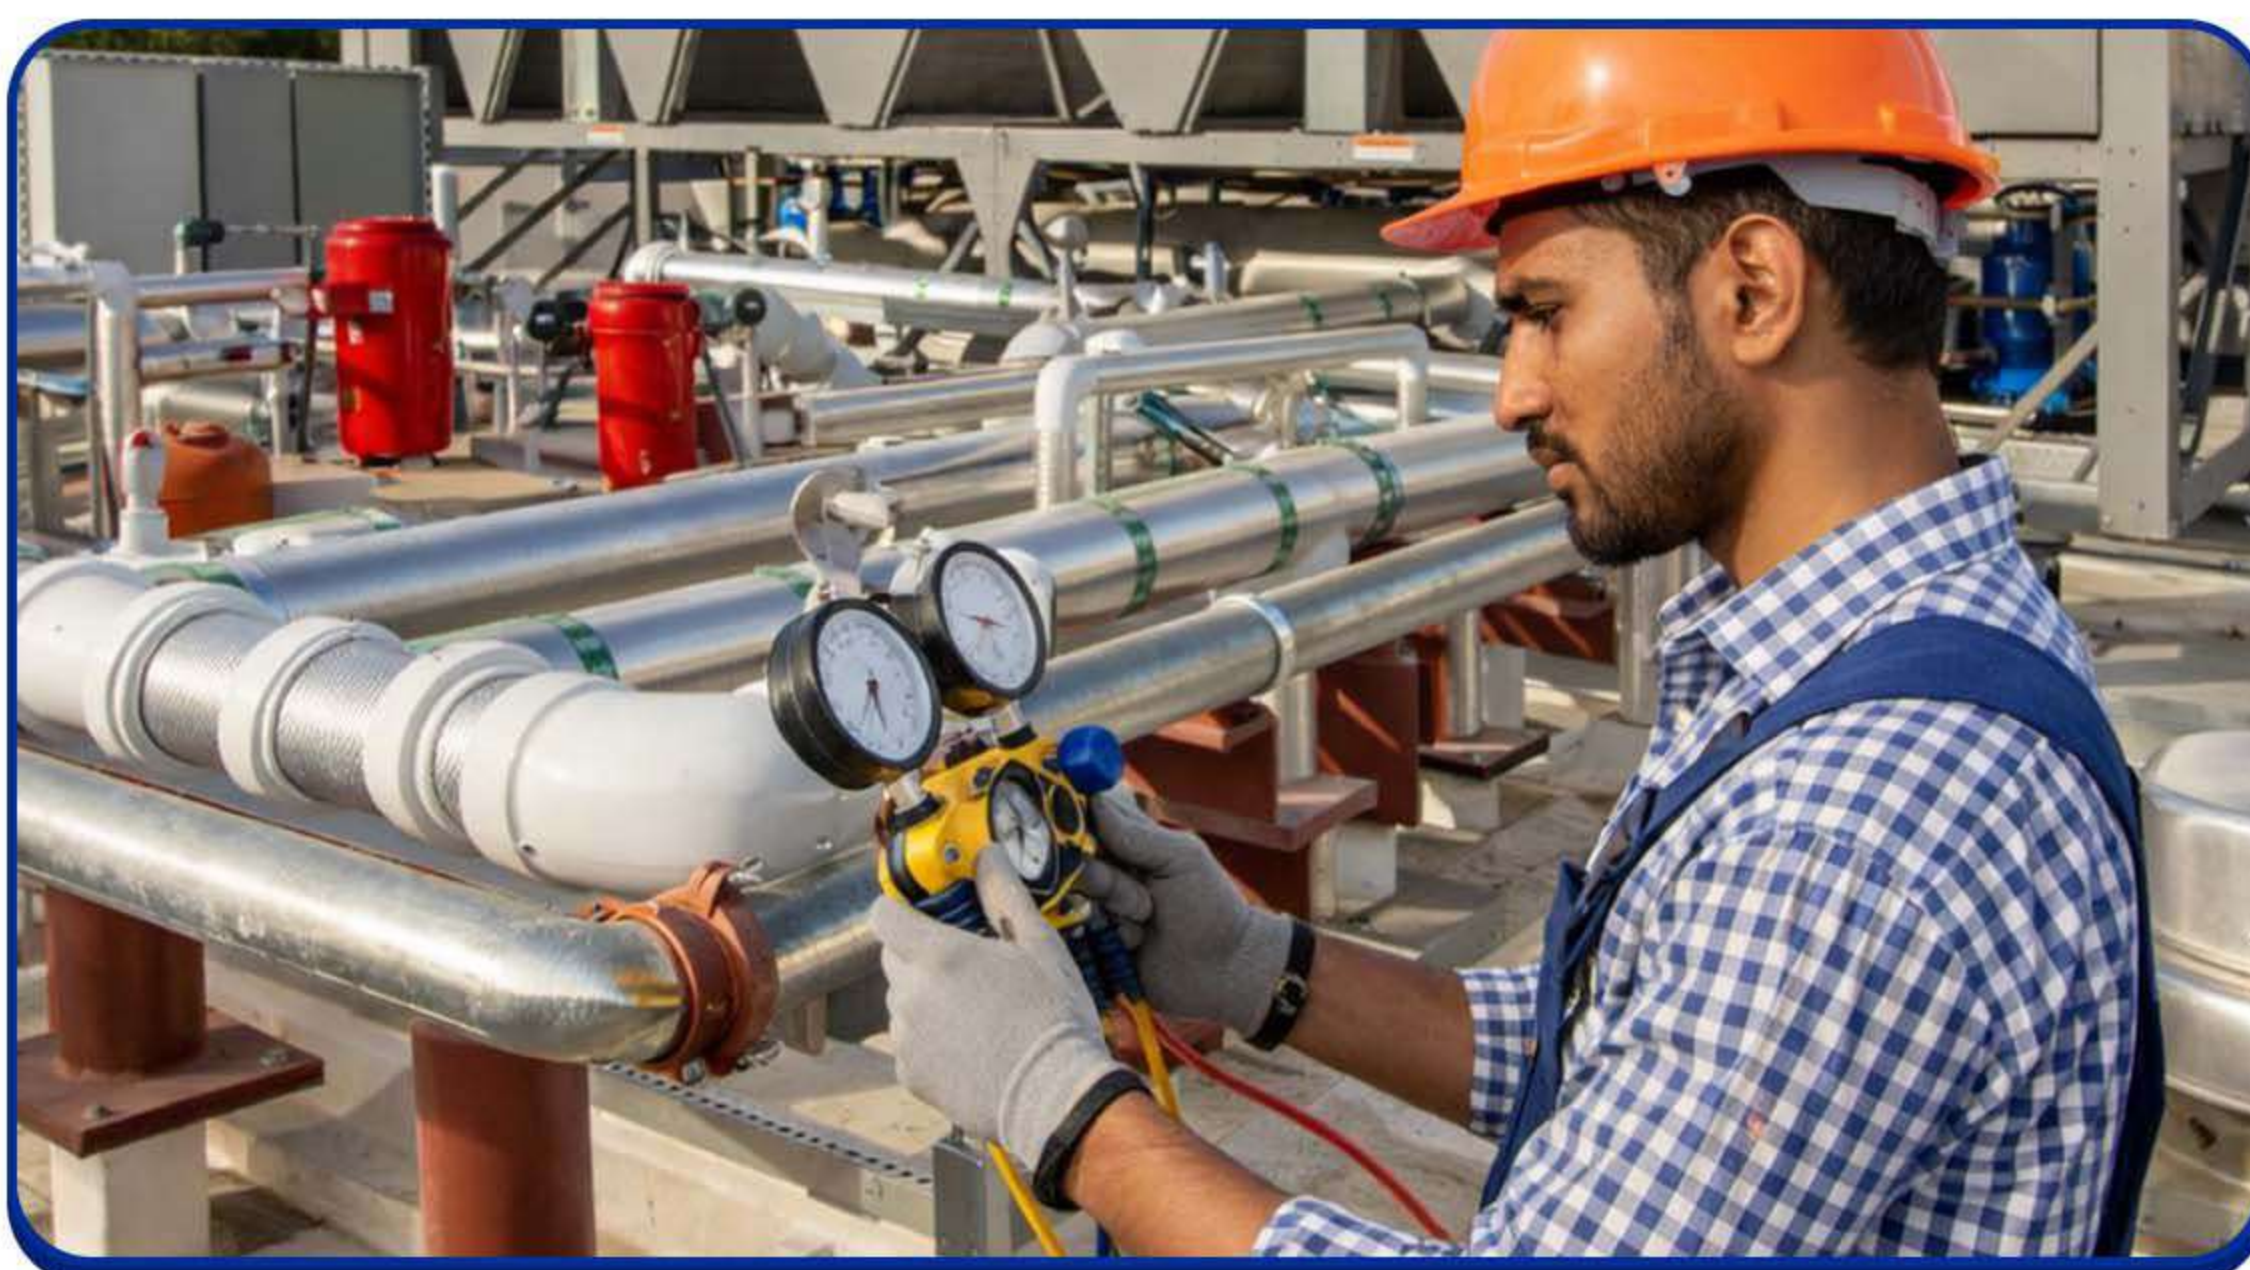

Ventilation & Exhaust

Ashiana HVAC Solution delivers effective ventilation and exhaust systems that remove heat, smoke, and pollutants, creating a safe and comfortable indoor environment.

Pressurization

We design and install pressurization systems for staircases, lift lobbies, and critical areas to maintain controlled air pressure and enhance safety during emergencies.

HVAC Controls & BMS

Our smart HVAC control systems and Building Management Systems (BMS) enable seamless monitoring, automation, and energy optimization for improved operational efficiency.

Our Key Features

At Ashiana HVAC Solution, we go beyond delivering HVAC services – we deliver value, reliability, and innovation. Our strength lies in a blend of 24 years of experience, skilled professionals, and a commitment to quality and sustainability.

Skilled People
